INDICATIONS

Risk

POLYPLOT® Mattress can be used, when :

- 1- Confinement in bed is necessary resulting from diseases or handicap and there is at the same time an increased risk of developing pressure sore according evaluation scales (Braden, Norton, Waterlow, ...).
- 2- Pressure sore (Stages 1 & 2 according EPUAP) has developed.

DELIVERED COMPRESSED AND ROLLED

- ↳ Gain in storage volume 2.5 time less volume.

SYST'AM® P101M

MATTRESS MOULDED IN ONE SECTION

- ↳ Guarantee for a perfect holding in the cover.
- ↳ Compatible with standard and multi-sections bed bases.
- ↳ Gain of time and easier installation of the supports.

14 cm

POLYFILM® FITTED BED SHEET FOR SINGLE PATIENT USE

- ↳ A breathable and hyper-extensible hypoallergenic polyurethane film.
- ↳ Unfailing adaptability: Unlike PVC, this material is extremely strong and offers lasting resistance against wear and tear.
- ↳ POLYFILM® is totally impermeable to liquids.

POLYMAILLE® & POLYMAILLE® HD INTEGRAL COVER FOR MULTI-PATIENT USE

- ↳ Hypoallergenic polyurethane enduction (anti-bacterial, anti-germ, anti-fungal).
- ↳ POLYMAILLE® is bi-extensible, to reduce tear and shear forces.
- ↳ Zip over 3 sides. Non-slip base (POLYMAILLE® only).
- ↳ POLYMAILLE®HD : welded seams

PRODUCT «ADVANTAGES»

LARGE SURFACE OF PLOTS
↳ Allowing to maximise the contact surface between the patient and the support thus to decrease the Max. pressures on area at risk.

INDEPENDENCE & MOBILITY OF THE BLOCKS
↳ Have been carefully researched to offer a significant reduction in the effects of chafing.

AERATION CHANNELS BETWEEN BLOCKS
↳ Help to reduce the effects of maceration through improved mattress ventilation.

PERFORMANCE AND COMFORT OF THE SYST'AM® HIGH RESILIENCE FOAM
↳ Because it is moulded and of high density (40 kg/m³), it ensures durable flexibility, comfort and a soft touch.
↳ It offers as well a better resistance against external wear and tear, for a longer lifespan of the mattress.

ROUNDED CORNERS
↳ Easier installation of supports in bed base.

WARRANTY 2 YEARS
